PURPOSE OF THIS EBOOK

Petzee is a smart pet tracking and activity monitoring solution designed to ensure the safety and well-being of pets. This eBook provides valuable insights into how our software enhances pet care through advanced tracking technology.

In this eBook:

Understand the challenges in **pet tracking and activity monitoring.**

Explore how Petzee solves these challenges with **innovative features.**

Learn why investing in Petzee is a strategic decision for **pet owners and businesses.**

Discover how Petzee redefines pet monitoring with live tracking and insightful analytics.

INTRODUCTION

Pet care has evolved beyond feeding and grooming ensuring pets' safety and well-being is now a top priority. Our software provides an intelligent pet-tracking solution that allows pet parents and businesses to monitor location, activity, and health metrics in real time. By using advanced tracking technology, Petzee offers a seamless solution to keep pets safe and active.

CHALLENGES FACED
BY PET PARENTS
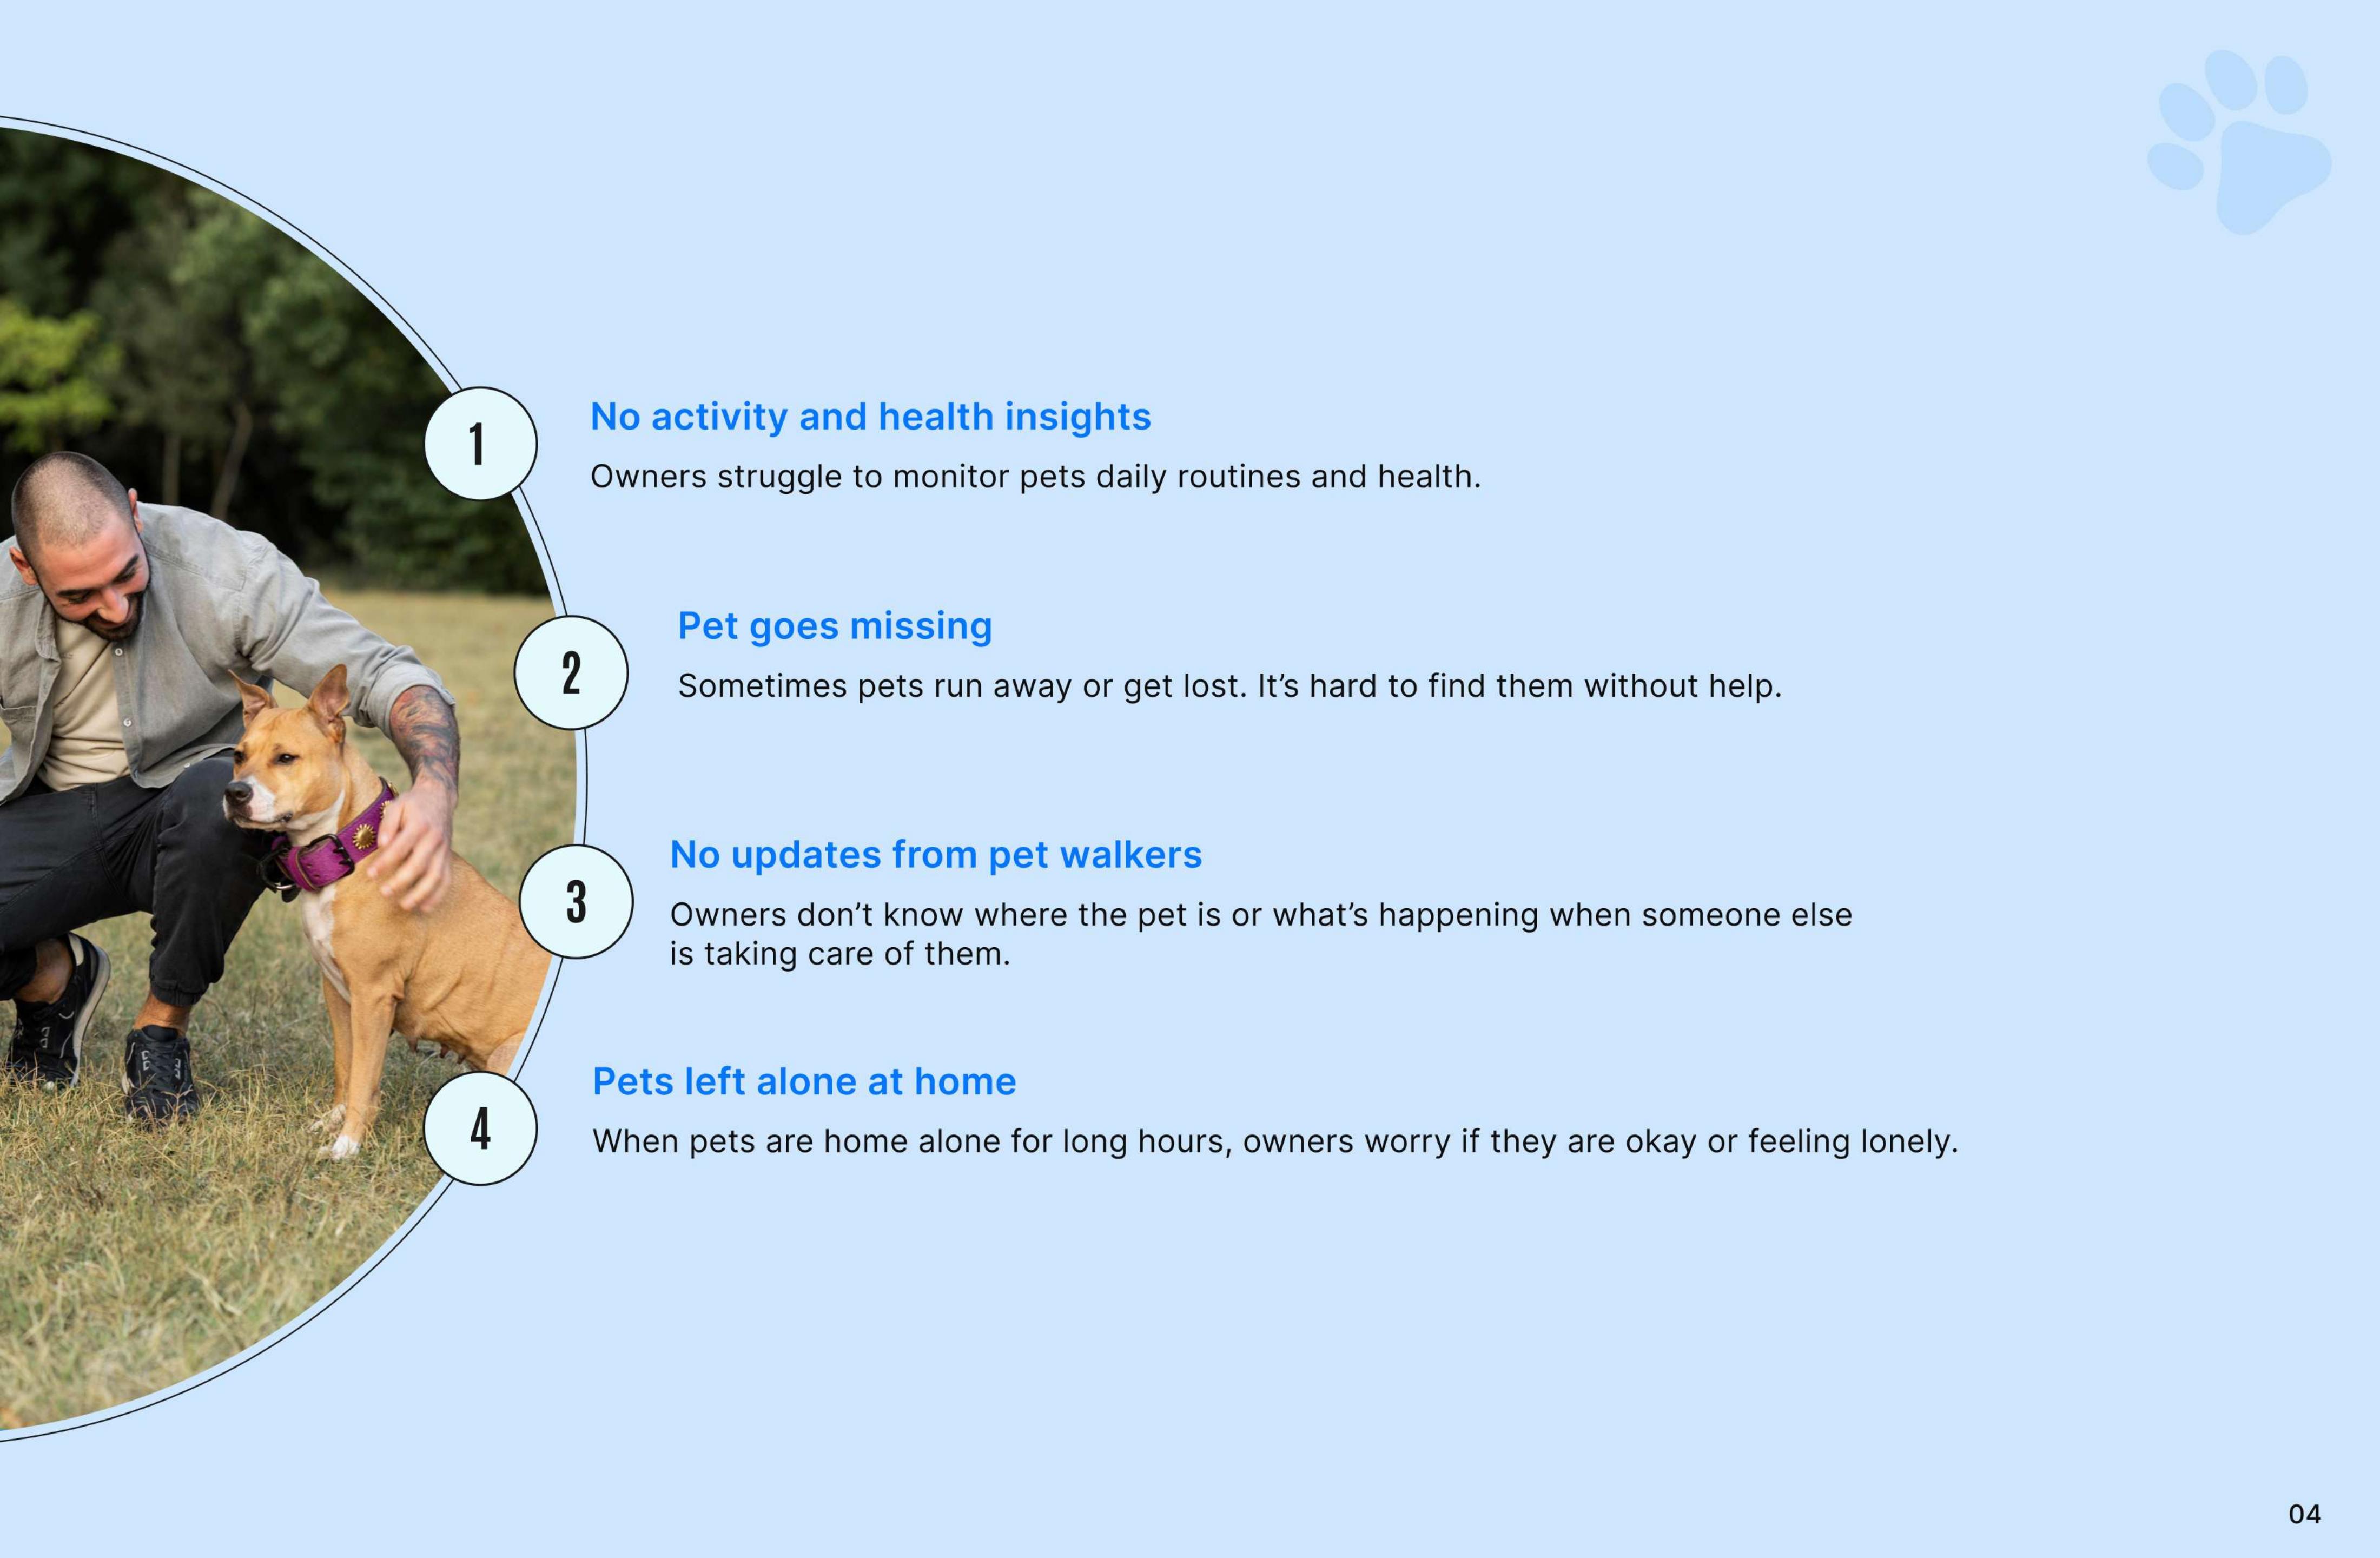

1 No activity and health insights

Owners struggle to monitor pets daily routines and health.

2 Pet goes missing

Sometimes pets run away or get lost. It's hard to find them without help.

3 No updates from pet walkers

Owners don't know where the pet is or what's happening when someone else is taking care of them.

4 Pets left alone at home

When pets are home alone for long hours, owners worry if they are okay or feeling lonely.

SOLUTION THROUGH FEATURES

To ensure pets' safety and well-being, our software stands out as the most reliable and innovative pet tracking and monitoring software. With its advanced features, pet owners can easily keep track of their pets' location, activity, and health in real time. Whether it's preventing pets from wandering off or maintaining a healthy lifestyle, our software has it all.

This section explores all the powerful features in detail, showcasing how our software enhances pet care with accuracy, efficiency, and convenience:

ACTIVITY & HEALTH MONITORING

KEY INSIGHTS
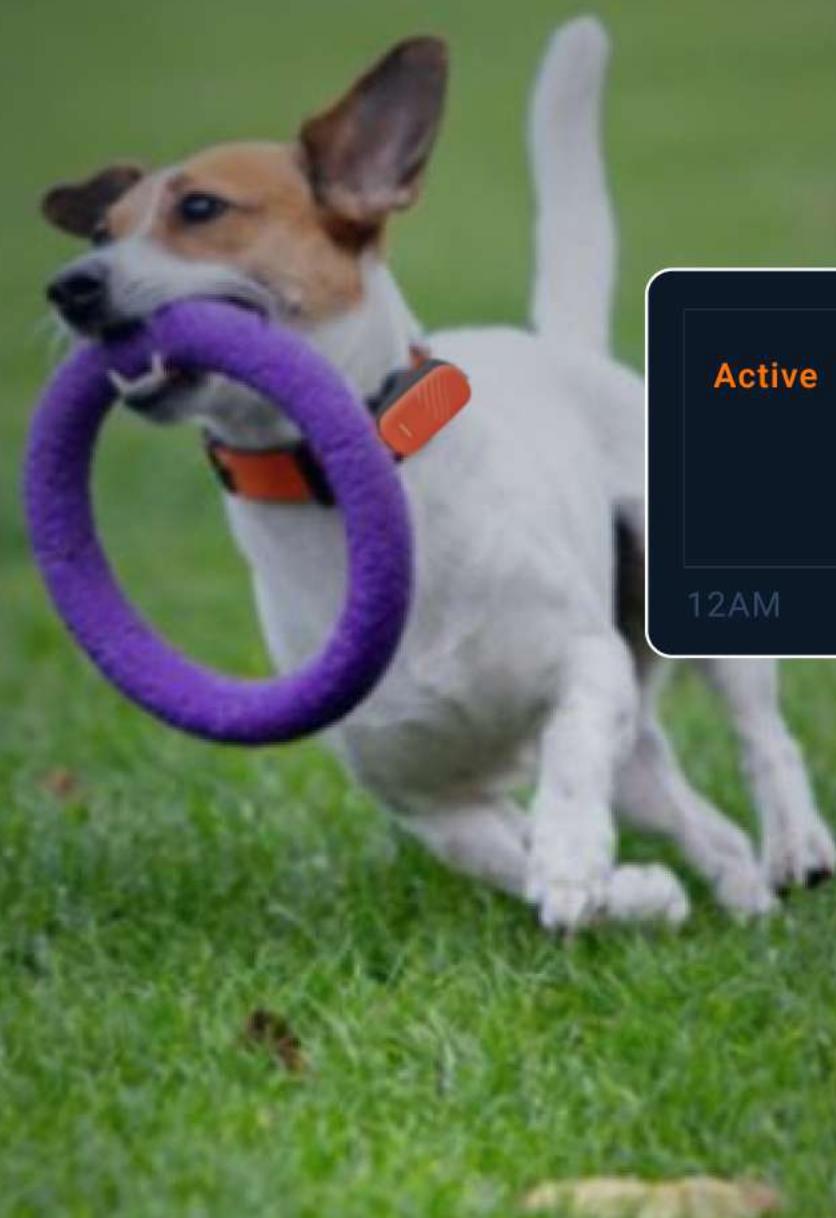

1 **Comprehensive activity tracking**

Monitor daily movement, rest periods, and fitness progress.

2 **Calorie & heart rate monitoring**

Keep track of calories burned and heart health.

3 **Fitness status**

Check the fitness status (good/poor/ok) of the pet based on their activity data.

4 **Historical data access**

Review past activity patterns to detect health or behavioral changes.

5 **Comparative insights**

Analyze daily and monthly records for better pet care management.

→ **Benefit**

Enhances decision-making with real-time insights, ensuring proactive health monitoring and pet safety.

ALERTS & SAFETY FEATURES

KEY INSIGHTS
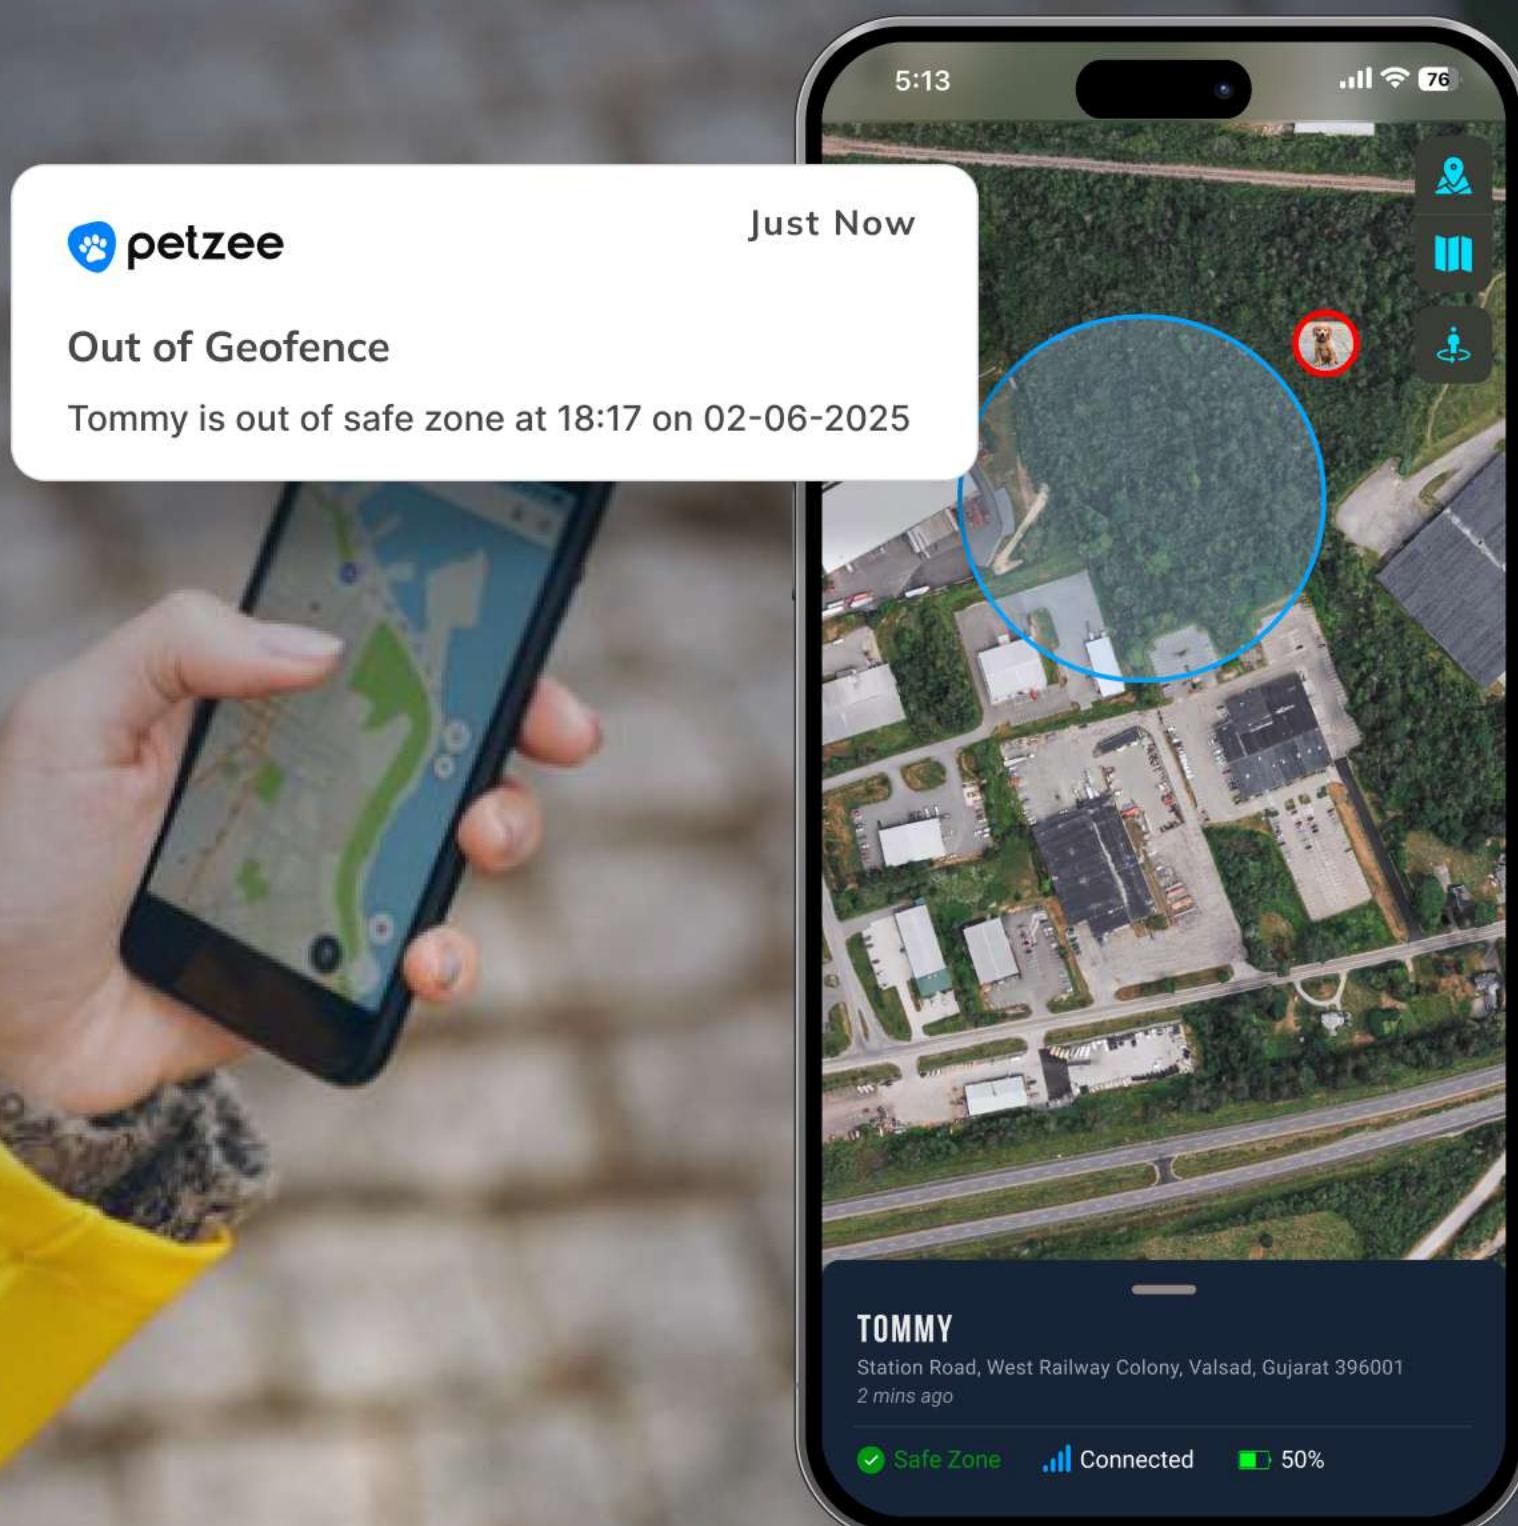

1 **Safe zone**

Get notified if your pet leaves or enters a set boundary like your home or park.

2 **Low Battery**

Get a reminder when the device battery is running low.

3 **Location**

Set a time and get your pet's location automatically at that time every day.
